

SUBMARINE RESCUE ALLIANCE ABOUT US

The Submarine Rescue Alliance combines the skills, knowledge, and experience of three leading underwater system companies – Phoenix, OceanWorks, and Magpie – to design and engineer, build, operate and maintain the most advanced submarine rescue and interventions systems in the world. The breadth of the alliance's experience is unmatched with the Submarine Rescue Diving and Recompression System (SRDRS), Submarine Rescue Chambers (SRC), Atmospheric Diving System (ADS), Remotely Operated Vehicles (ROV), Submarine Emergency Ventilation and Decompression Systems (SEVDS), Emergency Life Support Stores (ELSS), and the commercial ship integration of all systems. We've taken advanced underwater systems from concept development to final product including compliance with all required local and international certification standards.
